

PRE-CONNECTORIZED OPTICAL ACCESS POINT FK-CTOP

Description	The Pre-terminated Slimbox Drop Terminal FK-CTOP is used as a connection point between the Distribution and Access Networks. The product is compatible with external reinforced SlimConnector optical adapters allowing field installation of SlimConnector pre-terminated drop cables without the need to open the enclosure.
Application	The FK-CTOP is used in outdoor aerial applications. It is equipped with pole or wall installation support. It is possible to install in wire rope. (Sold separately).
Advantage	The SlimConnector reinforced optical adapters allow the connection of the pre-terminated drop cables without interrupting other circuits from drop cables without the need of opening the enclosure to do so. The product has up to two derivations ports (kit sold separately).
