

RACK UHD

Installation Environment	Indoor
Compatibility	UHD Solution
Advantage	<ul style="list-style-type: none"> • Ultra High Density Solution - UHD - 144-ports in just 1RU with simple and agile fiber management; • Revolutionary technology platform with an industry leading port capacity up to 5760 LC ports • It has a vertical cable guide integrated with radial spools and cable guides that allow the correct routing of the cable respecting the radius of curvature; • Spreadable adapters provides easier and safer access to both front and rear connectors; • Innovative modular design with removable cassette; • Fully Telcordia NEBS and GR-449 compliant for data center.
Height (mm)	2133mm - 84 in
Width (mm)	762mm - 30 in
Depth (mm)	610mm - 24in
Color	Black
Number of Positions	Up to 5760 LC ports
Included Accessories	12 spool 6 cable clamp
RoHS	This product is in accordance with the RoHS European Directive: a directive on the restriction of the use of certain hazardous substances and related to the environmental preservation.
Certifications	GR-449
Standard	NEBS
