

## RACK UHD

|                          |  |
|--------------------------|--|
| Installation Environment | Indoor   |
| Compatibility            | UHD Solution   |
| Advantage                | <ul style="list-style-type: none"> <li>• Ultra High Density Solution - UHD - 144-ports in just 1RU with simple and agile fiber management;</li> <li>• Revolutionary technology platform with an industry leading port capacity up to 5760 LC ports</li> <li>• It has a vertical cable guide integrated with radial spools and cable guides that allow the correct routing of the cable respecting the radius of curvature;</li> <li>• Spreadable adapters provides easier and safer access to both front and rear connectors;</li> <li>• Innovative modular design with removable cassette;</li> <li>• Fully Telcordia NEBS and GR-449 compliant for data center.</li> </ul> |
| Height (mm)              | 2133mm - 84 in   |
| Width (mm)               | 762mm - 30 in  |
| Depth (mm)               | 610mm - 24in   |
| Color                    | Black  |
| Number of Positions      | Up to 5760 LC ports  |
| Included Accessories     | 12 spool<br>6 cable clamp  |
| RoHS                     | This product is in accordance with the RoHS European Directive: a directive on the restriction of the use of certain hazardous substances and related to the environmental preservation.   |
| Certifications           | GR-449   |
| Standard                 | NEBS   |
